Advantage of Veneer Moulding

Technological wood veneer

No bending、No cracking

High productivity

60 metres per minute

PUR

High Performance Hot Melt
Glue

Import Pine in Furniture Level

It's very suitable for furniture manufacturing and various decorative wood applications with the advantage of high yield. And our pine suppliers are also in possession of certification from FSC.

Finger joint process

For furniture technology, splicing and finger joints is the general way. Per finger jointed wood, stable performance, good strength, it is not easy to deformation and bending.

Technological wood veneer

Technological wood is almost no bending, no cracking and no distortion. the stability of the product is good, and the comprehensive utilization rate of wood can be increased to more than 86%.

High productivity, Timely
delivery

PUR

High Performance Hot Melt
Adhesive

IKEA

Designated Veneer

PUR Hot Melt Adhesive

Compared with EVA Hot Melt Glue/ Water-Borne Adhesive/ Solvent Adhesive, PUR has the following advantages:

1. Solvent-free, one-liquid type, no drying process required.
2. Easy operate, fast fixing and improving work efficiency.
3. Heat resistance, cold resistance, water vapor resistance, chemical resistance and solvent resistance, and the bonding strength is greatly improved.
